SNAPP INTERNSHIP PROGRAM – ALVIN KIMATHI

Focus: Public Data Intelligence & Analytics for Snapp 2026 (Kenya Macro + Sector Signals)
Theme: From Public Data to Decisions — Building a Weekly Insight Engine (KNBS, CBK, KRA, NTSA, IEA, World Bank)
Duration: 10 Weeks
Mentorship Model: Train → Practice → Review → Deploy
Core Values: ENTICE — Excellence, Novelty, Transparency, Integrity, Collaboration, Empathy

CADENCE (NON-NEGOTIABLE)

1. **Weekly Monday Brief (every Monday, 9:00am Nairobi time):** Alvin presents a 10-slide "Public Data Monday Brief" to Snapp leadership.
2. **Artifacts due before the meeting:** deck + 1-page memo + updated dashboard module + updated data-source registry.

WEEK 1 – ORIENTATION & INSIGHT SYSTEM SETUP

FOCUS:

Snapp context + analytics operating system.

TRAIN:

- Snapp's ENTICE values, communication cadence, and delivery expectations.
- Public-data sourcing basics: update cycles, definitions, and revision risk.
- Define the "Kenya Signals Dashboard": metrics list, naming conventions, and owners.

PRACTICAL TASK:

- Set up workspace: folder structure, Git repo, dashboard skeleton, and data-source registry template.
- **Deliver Monday Brief #1:** Kenya Macro Baseline (what to track weekly).

MENTORSHIP GOAL:

Establish repeatability: same format weekly, improving depth.

ENTICE Focus: Transparency.

WEEK 2 – KNBS CPI & COST OF LIVING

FOCUS:

Inflation story and what moves household/SME behavior.

TRAIN:

- CPI structure, baskets/components, and interpretation (MoM vs YoY).
- Charting standards: clean visuals + one-sentence takeaway per chart.

PRACTICAL TASK:

- Build CPI dashboard module (headline + component breakdown).
- **Deliver Monday Brief #2:** Inflation drivers + sector implications.

MENTORSHIP GOAL:

Move from reporting to decisions (so-what and now-what).

ENTICE Focus: Integrity.

WEEK 3 – CBK: RATES, FX, LIQUIDITY & MARKET PULSE

FOCUS:

Monetary conditions and financial risk signals.

TRAIN:

- Core CBK indicators: rates, FX, liquidity cues (as available).
- Turning market indicators into business implications and scenarios.

PRACTICAL TASK:

- Add CBK module to dashboard; create FX + rates trend pack.
- **Deliver Monday Brief #3:** Money conditions (tightening vs easing) + impact on tech spend.

MENTORSHIP GOAL:

Improve hypothesis quality + confidence ratings.

ENTICE Focus: Excellence.

WEEK 4 – KNBS: JOBS, HOUSEHOLDS & DEMAND PROXIES

FOCUS:

Demand-side reality and who is squeezed.

TRAIN:

- Interpreting labor/household indicators and demand proxies (where available).
- Segmenting into buyer personas (households, SMEs, corporates, public sector).

PRACTICAL TASK:

- Build demand proxy charts + segmentation slide library.
- **Deliver Monday Brief #4:** Who has money, who doesn't, and what it means for Snapp packaging.

MENTORSHIP GOAL:

Create actionable segmentation for GTM.

ENTICE Focus: Collaboration.

WEEK 5 – WORLD BANK: BENCHMARKING & CONTEXT

FOCUS:

Put Kenya into comparative context; improve credibility.

TRAIN:

- World Bank indicators navigation, definitions, and comparators.
- Avoiding misleading comparisons (base years, revisions, variable definitions).

PRACTICAL TASK:

- Add benchmarking module (Kenya vs 3–5 comparators).
- **Deliver Monday Brief #5:** Kenya in context + investable/fragile sector signals.

MENTORSHIP GOAL:

Raise credibility through disciplined sourcing + caveats.

ENTICE Focus: Empathy.

WEEK 6 – KRA: TAX & COMPLIANCE PRESSURE MAP

FOCUS:

Where compliance friction creates product/service opportunities.

TRAIN:

- KRA public updates/data releases: extracting signals and trends.
- Mapping compliance pain into workflows and buyer journeys.

PRACTICAL TASK:

- Produce a "Compliance Friction Map" and draft 2 offer concepts (service + product).
- **Deliver Monday Brief #6:** Tax reality + where organizations get stuck.

MENTORSHIP GOAL:

Convert insights into monetizable plays.

ENTICE Focus: Novelty.

WEEK 7 – IEA + ENERGY/FUEL AS A COST DRIVER

FOCUS:

Energy cost outlook and sector exposure.

TRAIN:

- Energy indicators, fuel sensitivity, and sector exposure framing.
- Scenario language: base / upside / downside and what would change the view.

PRACTICAL TASK:

- Add energy module (energy/fuel narrative + sector exposure).
- **Deliver Monday Brief #7:** Energy outlook + 2 Snapp plays (e.g., logistics/manufacturing dashboards).

MENTORSHIP GOAL:

Sharper scenario framing; fewer speculative claims.

ENTICE Focus: Integrity.

WEEK 8 – NTSA: MOBILITY, SAFETY & TRANSPORT INSIGHTS

FOCUS:

Transport ecosystem signals and actionable dashboards.

TRAIN:

- NTSA reporting structure, classification, and trend normalization.
- Designing a public dashboard people actually use (clarity + utility).

PRACTICAL TASK:

- Build NTSA module + prototype a public-facing dashboard view (optional).
- **Deliver Monday Brief #8:** Road safety & mobility signals + target sectors.

MENTORSHIP GOAL:

Stronger product thinking from data.

ENTICE Focus: Transparency.

WEEK 9 – SYNTHESIS: CROSS-SOURCE SIGNAL LINKING

FOCUS:

Combine indicators into one coherent "Kenya Signals" narrative.

TRAIN:

- Correlation vs causation; lead/lag thinking; revision risk.
- Building an Insights Library (tagged, searchable, reusable).

PRACTICAL TASK:

- Create cross-source dashboard page + 1-page "Signals Map."
- **Deliver Monday Brief #9:** What's shifting underneath the economy + what Snapp should do next month.

MENTORSHIP GOAL:

Make insights operational: decisions, not slides.

ENTICE Focus: Collaboration.

WEEK 10 – FINAL: SNAPP 2026 OPPORTUNITY MAP + HANDOVER

FOCUS:

Turn the sprint into a reusable Snapp capability.

TRAIN:

- Documentation and handover best practices.
- How to keep the weekly system alive with minimal effort.

PRACTICAL TASK:

- Deliver final pack: dashboard, registry, insight library, and Opportunity Map.
- **Deliver Monday Brief #10:** 2026 outlook + top plays + target list.

MENTORSHIP GOAL:

Institutionalize the system and reduce dependency on the intern.

ENTICE Focus: Excellence.

EXPECTED DELIVERABLES

1. 10 Monday Brief decks (10 slides each) + 10 one-page memos.
2. Kenya Signals Dashboard (modules: CPI, FX/rates, demand, energy/fuel, transport, compliance, benchmarking).
3. Data Source Registry (links, definitions, refresh cadence, caveats).
4. Insight-to-Offer Library (minimum 20 "Snapp plays" with buyer + packaging + pricing unit).
5. Final Snapp 2026 Opportunity Map (ranked, evidence-backed).

EVALUATION CRITERIA

Categories and weighting:

Category	Weight	Indicators
Technical Delivery	40%	Data accuracy, dashboard usability, automation/repeatability, insight quality
Professionalism	30%	Documentation, communication cadence, responsiveness, stakeholder management
ENTICE Values	30%	Initiative, integrity, collaboration, transparency, empathy, learning velocity

EFFECTIVE DATE

January 12th 2026

Extendable based on final review and intern's availability.
